Hello everybody,
I am a french guy and I am old 29 and I had 4 bad operations of 500 grafts. I am not very happy of my result. I don't speak netherland and it's difficult for me to understand your posts in this language. I would like to learn this language but for the moment I would like to have informations about doctor feriduni. In france we don't have good surgeons and so I have holden surgery doctor bisanga and doctor feriduni. For the first we have a lot of informations in france, but for doctor feriduni we haven't got patients accounts. I know this doctor is popular in germany, belgium and netherlands and I would like to have your opinions to know if he is a very good surgeon. I saw him 2 days ago and he seems good but the most important to take a decision is your opinion. Thank you very much for your help and see you

Hi feula,

u find informations about Dr.Feriduni on www.hairtransplantnetwork.ocm or on his site. Only one person of this board was by Dr.Feriduni, he mentioned that he is really pleased with him, but he did not show any pics

In Belgium u find other surgeons, too. I dont know if u want STRip or FUE, but there is also Dr.Devroye, Dr.Mwamba or Dr.Heitmann in Amsterdam.

My doc was Dr.Heitmann and i am really pleased ! U can search here in this forum under "suche" for him!

I would not go to Dr. Feriduni. No independent informations on him, no pictures, no reports,

nothing! Look into Dr. Heitmann, Mwamba, Bisanga, maybe also Hattingen in Germany. But the very best surgeons you find in Canada and USA (H&W, Rahal, Armani, Feller and Cole).

Dr. Heitmann and Dr. Feriduni were colleagues a few years ago.
Dr. Heitmann's own hairtransplant was done by Feriduni.

It depends on your hairloss pattern, which doc is the best for u !

U can do an independant conceal by a Andreas Krämer, who offers free consultations and know the most docs in the world very good with all their strength and weakness. Perhaps thats an option, too, for u!

www.hairforlife.de

Phil is right, that 3/4 of the best surgeons are in USA/Canada, and for europeans the price of a ht is low cause of the high EURO

Good luck !

@morehair.

The job on Dr.Heitmann is very good ! When i was by Dr.Heitmann, i told him, that i want his hairstyle for me ... ! Do u know the hairloss pattern of Heitmann before the surgery ?

Just like Feller, Rahal, H&W, enz.

To be Coalition member mean nothing ! Independent research is necessary, too. Do u know the details how u can be a member in that coalition ?

Many recommended surgeons are not in that coalition like Cole, Mwamba, Bisanga, Heitmann

I think it's a question of money ...

What you want. I am not going to convince you.
What are the incompetent surgeons then in the Coalition according to you?

I see it this way; The surgeons in the Coalition are good and all of them can perform ultra refined Follicular unit hair transplantation.

<http://www.hairlosslearningcenter.org/hair-loss-content/Treatments/ultra-refined-transplants.asp>

That doesn't mean that there are no other good hair surgeons, but I think that you are pretty safe if you choose one of them.

Look at independent patient results and stories at hairlossforums, like hairlosstalk -or help.com. I won't give u any advice, u know better ur wishes, and what u are awaiting from a doc. It seems u didn't take time for any research, if u would, u'd never ask for that doc. Also mate, u better take time for a good research. Good luck.

Yes, u have 2. What a stupid argument. I am calling me, what I want. My Nick is something special to me, maybe my real name in English or something else, who knows? You don't say anything to the subtext of my msg.

By the way I followed ur advice and find u in haarweb.nl, u have to be "Dundee" (by the way, very nice nick). And it seems u are the victim of Hairobserverator.

Zitat:

I just give some information that are just facts. Is that a problem for you? I don't lie, I don't make up any things. Where are you affraid for?

It is ur facts, if they are true,

And no, it is not a problem for me, this webpage helped me, and should help other ones also. This why is my reaction allergic, if I see people in his first msg, that they are trying making a product good, what is really not proofed. That means with other words; the chance is very high in this case, u could be one of Ferudinis stuff or someone who is earning his money with him.

A lot of sellers or even docs are trying fishing possible patients for free. That is not my problem, but my problem is, if new members are getting confused because of this marketing concepts. We all as members of this page are responsible to keep this forum as an independent base of information.

That Moses thing was just a joke. Don't be too serious.

I am not Dundee at Haarweb, I am Morehair. Look at that site and you'll see that I have allmost 1500 posts there since April 2005.

Hairobservator was at Haarweb too, but he is already banned for life.

I understand that you are suspicious, but i'm not promoting Feriduni, but the Coalition. The topicstarter can also go to Dr. Devroye. He is on that list too. It doesn't matter to me where he goes, all I do is give some information.

I already told here that there are more good Surgeons who are not Coalition Docs. But maybe it is for some people easier to choose.

I understand that in Germany a lot of people go to Andreas Kramer, but isn't that almost the same as that Coalition?

You have enough brains to choose the right Surgeon for you. I have too, but a lot of people don't. Or it just doesn't interest them.

In the past there are so many victims by wrong performed hairsurgery, that i think it is not so bad to have a membership of good, qualified and controlled Surgeons.

But you have a point that it must not be too overcommerced.

Ok, by the time I'll post my pictures (when i get them from the clinic), but that has nothing to do with what I'm telling here. Again, all I give is just information.

PS, don't think I'm a speaker in favour of Villnow, because at Haarweb Hairobservator and I were oponents.

Maybe, its the same ... !

I think Feriduni make a good work, but there are no patients in germany, who showed us some results instead of Heitmann patients for example.

We all want, that nobody goes to a butcher ! So it makes no sense to debatte about 2 or 3 docs who make all solid work. Its the personal decicision of each, where he will go.

I dont understand, why u dont show your process ?

Hello mon Ami,
I didn't say he is a bad doc. Because I don't know any documented work from him. He is no one for me, even bad or good. I just said, that u should forget him, because they are better well known docs out there, and their work is well documented.
I am not against him, but serious, I am sniffing here a marketing trail.
So that was my statement first, so than tell me; what u find out about him in ur researches?
What make him so interesting?
If you can answer these questions with yes, than maybe we should take attention, if not, why u should take a risk, and choosing him?
Do he make a dense packing at the hairline over 70-80 graft/qcm?
Do he making an invisible scar line by FUT, and or able put 2000 grafts or more per day?
What about the results after 12 months?
What about his aesthetics skills?
If the answers are positive, or regular answers like, what Rahal, Wong can do, he also can do the same? Than we have to ask, what about his prices?

If his prices better than Heitmann, Bisanga, etc., than I ll begin think about him.. But before we cant prove the answers above, why should I go to the doc, and take a risk, what I don't need,

because, they are well known docs out there.. sounds logic or not?

Cheers mate

What do u mean ? History is history and i talked a lot with him during my surgery! What do u want to know ? We all know that he worked with Feriduni and for Villnow, when he begun ! But he was clever to do on his own, perhaps cause of different opinions in doing FUE ... ! Dont know anymore. Important is, that Heitmann is more present in this forum and germany than your doc Feriduni and nobody know him in this forum, cause there are no patients of him and when i look at other forums like hairsite oder hairlosshelp i found nothing ! Is he angry about that situation ? Is Feriduni making Liposuktion, too ? I like the docs more, who are practise only 1 thing.

Now i am sniffing marketing, too. Perhaps u re both the same person ?

Another thing is, that Dr.Feriduni wrote something here, a few month ago. That he will take more time to give some examples of his work here and perhaps answer questions... But there was only smoke after that post ! That's all what we heard of him. Ah, there is our user Billo, he is talking only good about Feriduni, but never showed his result. U know what this meas ...

nevertheless i think he is not a bad ht surgeon ...

He doesn't only work with him at the begin, but I can't give you too much information because id I do, you think it is marketing.

But I think the reason why Heitmann is famous in Germany and Feriduni isn't is Andreas Kramer.

Because Heitmann do work with Andreas and Feriduni doesn't. (marketing?)

But to be honest I don't see many results of Heitmann either on the internet. The only one I see often is the result of you. (NW5)

Really ? U see my result often ?

morehair,

what is your problem now ? You can give all information u know or u re not that person u want us to know ! Are u member of Feridunis stuff or himself ? U can pn me ...

That Heitmann is the better businessman and get Krämer in his boat and now Heitmann has the better marketing strategy ? The main reason why Krämer take Heitmann in his boat, was the quality of his work and u will find many other stories in this board of Heitmann. Why didn't Feriduni work with Krämer ?

Krämer is not a voodoo and can send all his clients to Heitmann. The people are not dumb, who are asking for help. Krämer's biggest Trump is his honesty

In my case, i wanted only informations about HT and he gave me 3 or 4 names of docs and some links to other forums! I voted for Dr.Heitmann, after seeing some results and i think u can imagine, that i did a lot of research ...

I think its business and he did the right. I am lucky, cause i found Dr.Heitmann only with the help of Mr.Krämer !

I don't have a problem.

And I am not Feriduni or working for him. When I give too much information, you and others think it is marketing from my side.

So Ok, I only gave here some information about a surgeon who is just as good as Heitmann. If you compare prices then you'll see why Feriduni doesn't work with Andreas Kramer.

When I was searching a surgeon for my second ht, I considered Heitmann too. Logical because the first time he did the job too and I was happy with the result.

But I researched a lot, and finally I came at Feridunis clinic.
(His clinic advertises at Haarweb)

I found out that Feriduni was the teacher of Heitmann, and he did the hairtransplant by Heitmann himself. I also found out that he worked with him from 2001 til 2004 in their own hairclinic. Even the father of Heitmann had a hairtransplant by Feriduni. (His photos are on the website of Feriduni.)

I compared prices and Feriduni was much cheaper.
This is the reason why I choose Feriduni instead of Heitmann.

Then I came here at Alopezie, and it
wondered me that Feriduni isn't very known in Germany.

Ah, very interesting. I had to pay 7500 Euro for 3600 Grafts and Feriduni will 7450 for 3500 Grafts ... not much cheaper ..., but the price is not all, u know. A little bit marketing do is as good. Is Heitmann advertising in haarweb.nl ,too ? Perhaps u can give me some links to patient of feriduni and heitmann. Perhaps per PN if u want

I think, Heitmann has Krämer for his marketing in germany, so he can concentrate more on his work, sounds good and real ...

I hope u will show your pics and we will see what happens ! Perhaps our Billo make the first step and is the first patient of Feriduni who shows his result. I hope for it !

Good luck and happy growin ...

Seriously- why should I not be from the UK? I am based in the north of England but used to live in Germany and the reason I post on here in English is that my written German is not too good. There is no hidden agenda, I don't work for Feriduni or anything. No need to be cynical.

Seriously, I am due to see Feriduni in Feb so I will let you know how it goes. I've not really heard anything bad about him on the forums. I will be having around 2000 grafts to restore my NW2-3 hairline. I would travel to the US or Canada but I think that there is a lot of talent in Belgium at the moment - including Bisanga etc.

The only thing I am worried about is having strip- I can't have FUE as I would not be able to shave my head (due to work)

I would be interested in any comments.

Du wirst natürlich genauso eine Kopfbedeckung tragen müssen im Falle einer strip OP . Aber das weisst du ja sicher schon . Eigentlich war es für mich einfacher nach 2 Wochen die FUE OP zu verbergen als jene mit strip. Klingt komisch , is aber so , oder nicht ?

The only thing I am worried about is having strip- I can't have FUE as I would not be able to shave my head (due to work)

Apart from some holywood actors, i can hardly imagine that you have something in your contract that prohibits you from shaving your head. Besides, the shaving thing is just a temporary period. Can you imagine the headlines 'employee got fired because he shaved his hair!' ... the company would look quite stupid !

We even have had a woman that shaved all. I guess it all depends how much you really want more hair.

We shave lawyers, bank directors, CEO's, the mailman, carpenters ... never is there a real big issue.

Thanks[/quote]

Bisanga sehr gut . Prohairclinic sehr gut (nur Fue) . Mwamba ist in diesem Forum noch nicht richtig vertreten , aber sicher ein guter Arzt . Das selbe mit Devroy (keine Ahnung wie man den Namen schreibt). Denk nochmal über deine strip Entscheidung nach , speziell wenn man wie du Zweifel hat !!

cw15 mach doch mal einen Wochenend- Trip nach Brüssel . Gleichzeitig kannst du ja einige Kliniken besuchen . Schau mal bei Beverottis Klinik vorbei . Damit kann man Zeifel und Aengste abbauen . Du gehst damit ja keine Verpflichtungen ein .

I don't think hairobservator advertises here for Feriduni.

Foxy/Bevrotti Thanks for the comments.

German Homer- Here we go again-What the f*ck are you on?

I sent a PM to Bevrotti before Christmas from one of the English forums but they only do FUE. I have been in touch with Bisanga via Phil Bell, Heitmann and had a few consultations with English Doctors, so why should I work for Feriduni?

Get a life

oh oh ohdont be angry, ist eben meine meinung. und ist mehr als ein zufall, mir wurst, macht doch werbung für wen ihr wollte, aber macht das öffentlich wie bverotti oder nougat, aber net einen auf user machen und hier immer von tollen ergebnissen berichten und dann nie ergebnisse zeigen. Das ist eben ganz klar die handschrift des Observator!!!

Get Life too!!!

Fue without shaving doesn't exist!
Fue without shaving the whole head is another story. That is possible, but every good clinic/surgeon offers that.

But don't forget this is only possible for small ht's (max +/- 800 grafts, if you'r hair is long))

That is not so strange isn't. I registrated myself here because I read the question of feulacriniers.

I dont think that unregistred readers can post here?

But think what you want. Read Haarweb and you know more about me.

Isn't Bverotti?

German Homer- Fair enough, I understand that there are many unethical people here on the forums but I have nothing to do with morehair or the other guy. I simply came on here as it's a German forum where more people are likely to have experience of Dr Feriduni. I am usuallly on the English forum (stophairlossnow) or the USA (hAIRLOSSHELP).

My concern is that I get an excellent result, whichever Dr I choose; my head, my money.

Sorry if there is any bad feeling but that was not my intention- i will stick to the UK/USA forum in future.

p.s run a check on when I joined here or my IP address and you will see that I am not connected to any posters here.

Thanks

Moses

Then it is true that Germans don't have a sense of humour - that's not even funny and probaly racist- why resort to boring unfunny posts?

Dude, it is true, the Germans don't have any sense of humour.

I hope i won't be banned after that sentence.

The guys here know, i am actually not German.

(spass, kommt runter!)

So, what?

The Chinese guy Kung-fu sends me a PM, and i send it here. What is your problem, u don't believe me? He needs help like others here specially in this thread.

Sorry Moses- seems you do have a sense of humour - I just thought that you had reverted to lazy racial stereotypes for a cheap laugh.

Anyway, back to the thread, I was just looking for info on Feriduni

Cheers

Don't worry Dude, i am fine. Go ahead with Dr. Feruduni. I can't help u in this case. But hey, go to him, and let us know about ur results.

Why not?

We don't have any experience in this forum about him. That why we are so confused. Never mind my friend and good luck.

Cheers Moses

Amen Moses

@CW,nix gegen dich, das habe ich auch nie behauptet, aber wie du siehst gibts auch andere hier. tut mir leid wen ich dich persönlich angegriffen habe. Wenn du zu Ferduni gehen solltest dann zeig hier mal die ergebnisse. Habe gesehen das er auch in Frankfurt also in Deutschland

operiert. Aber nix für ungut, ist wie Moses schon sagt: hier gibts keine Erfahrung ausser das Geschwafle vom Observator

Habe beim Stöbern diesen Thread gefunden

Was man erkennt sind zwei wichtige Dinge:

- Früher war nicht alles besser (schon gar nicht das sprachliche Niveau hier im Forum)
- Auch heute anerkannte/empfohlene Ärzte dieses Forums haben mal kleine angefangen

Gerade letzteres finde ich interessant, da einige Kliniken sich hier beschwert haben, dass immer nur die gleichen Ärzte empfohlen werden.
