1st International WORLD FUE INSTITUTE Workshop

Tenerife, Canary Islands (Spain)

November 11-13, 2016

The primary purpose of the 1st WORLD FUE INSTITUTE Workshop will be to impart the latest in FUE techniques, methodology, instrumentation and technology while inspiring new innovations and insights in an ever-changing area of medicine. Through live surgeries, instructive videos and lectures,

delegates will gain knowledge and confidence while acquiring wisdom and understanding of FUE skills including surgical planning, precision and artistry.
