bekam ich gestern als newsletter:

If the economy has your hair falling out, The Cole Hair Transplant Group has come up with a solution to help you stimulate your hair and leave you with enough money saved to stimulate the economy.

With the current economic crisis, keeping your youthful appearance and getting your hair in it's best shape has never been more important. Dr. Cole and the staff at The Cole Hair Transplant Group have heard your concerns about the economy. As a result, we are reducing prices. Here are our new prices during the economic slow-down:

Shaven CIT prices are now \$6 per graft.

Non-shaven CIT prices are now \$8 per graft.

Strip prices are as low as \$4.00 per graft
