Unser Partnerarzt Prof. Dr. Kayihan Sahinoglu lädt zum

1. Live FUE Workshop an fixierten Tierkadavern ein.

In Zusammenarbeit mit der "Internationalen Vereinigung der Haarchirurgen" (ISHRS)

Ein kurzes Beispielvideo der Haarentnahme via FUE und Implantation an einem Tierkadaver finden Sie auf der Webseite:

<http://www.ishrsfueistanbul2019.org>

Zielgruppe: Anfänger und Fortgeschrittene im Bereiche der FUE Haartransplantation (Ärzte und Mediziner)

Ort: Istanbul, Türkei

Datum: 19.-21. April

Anmeldung: <http://www.ishrsfueistanbul2019.org>

Dear Colleagues,

Hair Transplantation and FUE technique is becoming more popular recently. Learning of this technique and increasing the practical experience are gaining immense importance through ISHRS organized workshops.

We successfully managed to establish FUE extraction from fixated Cadavers with a special formula. We believe that learning FUE technique and hair transplantation through hands on cadaver study is a very special opportunity for the participant doctors who wants to learn FUE or advance their techniques.

offers high technology facilities. In this modern and high technology laboratory, every four or five participants are going to be working on a cadaver and all the steps of FUE technique will be demonstrated in a great detail with the supervision of the ISHRS member faculties.

After this special cadaver hands on experience, we are offering an important opportunity on second day with live FUE operations in which the participants will have the chance to observe every detail of the FUE techniques and ask their questions 1 on 1 for advancing their knowledge and experience.

Do not miss the chance to attend 'ISHRS FUE CADAVER HANDS-ON & LIVE SURGERY

cadaver and live surgery practices and to enjoy the historical atmosphere of beautiful Istanbul.
