TNBT the first international conference on hair search and hair transplantation of the Middle East and Turkey is in Istanbul under the leadership of Transmed.

"The Next Big Thing" conference will be held in Sheraton Istanbul Hotel under the leadership of Transmed between 13th and 15th May. Issues like cloning, genetic engineering, meth of FUE, PRP and the usage of ACell and laser for hair transplantation will be discussed in detail at the Next Big Thing conference. Dr. Jerry Cooley, Dr. Bessam Farjo, Dr. Robert Haber, Dr. Gerd Lindler, Dr. Jennifer Martinick, Dr. Val Randall, Dr. Ron Shapiro, Dr. Larry Shapiro, Dr. Jerry

take part in the live surgeries and presentations of the conference.

Turkey has become a popular hair transplantation center in recent years.

Transmed taking a crucial role for hair transplantation gathers relevant key figures from all over the world at The Next Big Thing conference in Istanbul to share new developments in hair transplantation technologies. The conference supported with workshops aims at presenting a platform to carry developments in hair transplantation to the next phase.

The International Society of Hair Restoration Surgery (ISHRS) active since 1993 and having doctor members more than 700 from 47 countries over the world invites every year one of its members outside USA to share its clinical research. This year, Istanbul is the host country of this important meeting.

The name carrying the conference organized by the name "The Next Big Thing" is Melike

method in ISHRS- Boston conference in October 2010 has been invited to organize the first ISHRS local conference of The Middle East and Turkey.

At The Next Big Thing conference to be held in 13th and 15th May by Transmed Hair and Plastics Clinic, Transmed team and surgeons from other countries will share latest developments in FUE method, their own methods and medical instrumentations with live practices. Seminars of The Next Big Thing will be held in the Sheraton Maslak Hotel and surgical practices will be held in the Clinic of Transmed Hair and Cosmetics Surgeon. The best researchers and surgeons in the field of hair will discuss such issues as cloning, genetic engineering, method of FUE, PRP and the usage of ACell and laser for hair transplantation. For the live surgeries and presentations, Dr. Jerry Cooley, Dr. Bessam Farjo, Dr. Robert Haber, Dr. Gerd Lindler, Dr. Jennifer Martinick, Dr. Val Randall, Dr. Ron Shapiro, Dr. Larry Shapiro, Dr. Jerry Wong and Transmed Medical Director Dr.

Transmed offering service in the field of hair transplantation and plastic surgery with its professional team for 17 years invites all relevant experts to meet in Istanbul for this significant meeting which gathers doyens of hair researchers and hair surgery.

Sie operiert also seit 15 Jahren im Durschnitt 3 Patienten am Tag?

Kein Wunder warum die Transmed Ergebnisse so aussehen wie sie eben aussehen.

Naja, sie ist Plastische Chirurgin, sie meint vermutlich damit alle Operationen, unter anderem auch kleinchirurgische Eingriffe mitgezählt.

Nichts desto trotz habe ich bisher keine überzeugenden Ergebnisse von unabhängigen Usern gesehen.

Bin nur ich so doof? "The next big thing" ist doch schon Vergangenheit, oder meinen die Mai 2012 ?

Alles irgendwie ohne Sinn und Verstand, faul und bequem auf Englisch, was ist das für ein Verein ?????

Glauben die wirklich alle rennen jetzt deswegen zu ihnen nach Istanbul?

Organisation ist wo u.a. weltbekannte HT Spezialisten wie Ron&Larry Shapiro und Jerry Wong sind.

Der FC St. Pauli z.b. hat in der Bundesliga u.a. mit Bayern München und Borussia Dortmund gespielt, das heist aber noch lange nicht das sie gut sind.

Wie sehen die Transmed Ergebnisse denn aus?

Ich bitte Sie konkrete Informationen in das Forum reinzusetzen über welche Patienten Sie sprechen.

Hallo,

oh mein Gott! Das Erste sieht ja wirklich grauenhaft aus! Wie kann man einen Patienten nur so verunstalten?

@ Transmed

Was sagen Sie denn zu dem "Ergebnis"?

Grüße

---
