as far as i know kul is a plastic surgeon who performs the whole range of aesthetic surgery, that is he is not focussing exclusively on ht. therefore i would not choose him.

here is an english speaking forum you might consult

Hi,

regarding turkish specialists, there is a broad opinion here on the forum, that the best is Dr. Keser (by many Keser is regarded as one of the best in the world), while Özgür and Koray have very good results, too, but are a little bit cheaper. As far as I know, they all do FUE. Furthermore, usually the users warn from all other surgeons in Turkey.

Website of Keser: <http://www.derma-plast.com/> Anyhow, I can't find videos from him on youtube. But the pictures on the website look impressive, achieving a density of 70 grafts per sq.-cm.

Website Koray: <http://www.hairtransplant-center.com/> You will find many videos from Koray on youtube: search for "koray hair transplant"

Website Özgür: <http://www.fue-hlc.com/en/> Koray videos on youtube: <http://www.youtube.com/user/FueHair?feature=mhum>

Edit: a result from Keser:

wenn er nicht in der lage ist, die erfahrungsberichte in diesem forum zu finden wird er es sicher auch nicht hinkriegen, fotos hochzuladen.

Spaß beiseite, er kann kein deutsch, die Erfahrungsberichte helfen ihm da nicht viel.

Hello Patrick

It's not difficult to reach and translate Results.

First of all - > Here you can find the european and turkish specialists:

<http://www.alopezie.de/foren/transplant/index.php/i/6/>

"Click" one of the doctors names and you will find a long list of reports.

If you especially are looking for fotos:  
Please look at the left side of each report-title.  
If you can see a small clip, it tells you:  
There are fotos inside this report.

Also:  
In many userpostings you find a button (left side below) with the title "Anhang".  
Click on it and you see photos - uploaded by users.

It is very difficulty for users to give a clear choice for one of these specialists,  
because not only one of them makes a very good job.

By the way: Maybe this program can help you, to translate:

<http://translate.google.de/>

Good luck,  
best regards from Mona

Hello Patrick,

I am just wondering why you only want to go to turkey if you have bad experiences with one of the best reputed doctors?  
What about Belgium? There are quite some good doctors where a lot of people from this forum made very good experiences.
