wer braucht schon illegale "wegretter"...die legalen sind bessere "wegräumer"

<https://dailyhealthpost.com/opioid-epidemic/>

Zitat:According to data from the Minnesota Department of Health (MDH), in 2015, more than 50 percent of the drug-related deaths were linked to prescription medications, not illegal street drugs. In comparison, the report states that 216 deaths were associated with prescribed opioid pain relievers compared to 114 caused by illegal heroin.
