Interessante Studie:

Männer mit erblichem Haarausfall haben im Schnitt ein 60 % tieferes Spermavolumen.

AGA scheint einige negative Aspekte zu haben was die Gesundheit angeht.

Bald men aren't as fertile as you think: Men who lose their hair at 30 have a lower sperm count, study reveals

Sperm volume count was nearly 60 per cent lower in men who lost hair

Hormonal changes associated with hair loss may adversely affect semen

One in seven couples - or 3.5million people - have difficulty conceiving
