Hello!!!

Ok so I guess for integrating well in Germany you need two things: learning German and trying your Ket lotion!!!

I cannot do anything for the first part to help (already struggling myself) but for the lotion here is what I would like to try and would need advice.

I was thing of trying a new variation of the recipe by merging two of them:

20 ml Ket-Shampoo <https://www.medizinfuchs.de/8881916>

10 ml ethanol 96%

0,4 g Piroctone Olamine

1 g Avocadin

Thank you for any help!!
