Hi,

we would like to present a case of tricopigmentation made in our studio Men's Ink in Milan. In this specific case the client has a universal alopecia problem that causes hair loss throughout the head.

With the tricopigmentation it was possible to have an extremely natural shaved effect result.

We are specialized in making extremely realistic tricopigmentations with natural hair lines.

For more information do not hesitate to contact us by email info@mens-ink.com or Whatsapp 0039 366 311 9441

Thank you for your attention
