---

mit oder an corona.....

Zitat: Suppose someone who tested positive for COVID-19 was killed in a car accident. The car accident would be the cause of death. This person would be counted as having "died with" COVID, not as having "died of" COVID.

2020 gab es ohne impfung 30.000 tote

2021 gab es trotz oder gerade wegen der impfung 76.000 tote

man kann es auslegen wie man es möchte...man liegt immer falsch oder immer richtig..... liegt in auge des betrachters...
