# Comparing State Vaccination and Death Rates

Average monthly deaths per 100,000 since adult vaccine eligibility

Source: New York Times database of reports from state and local health agencies; Centers for Disease Control and Prevention | Notes: Chart shows deaths reported since universal vaccine eligibility on April 19, 2021. Vaccination rate is the percentage of the total population fully vaccinated as of Dec. 20, 2021.

THE NEW YORK TIMES
