Überschrift einigermaßen übernommen, sorry

Topical T3 study - 1000% Growth. Anyone tried it?

Hey, came across this study below

<http://haidut.me/?p=1127>

<https://pubmed.ncbi.nlm.nih.gov/11525263/>

I know it was done in Mice but has anyone tried this? Had any experience? I assume it would be relatively easy to dilute T3 Liothyronine Sodium in 50ml of ethanol and use this as a topical.

Thoughts let me know

-edit-

Does anyone have any more information about the efficacy of this?

Kann man T3 irgendwo einfach bestellen? Ich würde es testen.
