Hey Guys,

after my desperate post more than one year ago:  
<http://www.hairlosstalk.com/discussions/viewtopic.php?t=2806> 9&highlight=

I can give you now my 12 months report on dutas:

Sideeffects: I became "nightblind" (I cannot see very good anymore if it's dark) but this could have many many other reasons, I'm not horny anymore when I'm drunk. But anyway I'm totally potent when I'm so sober and horny like when I was a teenager

Results:

Three months after dut, after my first shedding:

Now after 12 months:

What do you guys think?

I'm also in a sheddingphase again right now! That makes me going crazy sometimes, but I know it will become better.

Balu

Was sagt ihr?
