Been on minoxidil for about a year and a half and have not seen even the smallest amount of regrowth.

My hair only started visibly growing after doubtfully trying out the natural techniques to re-grow lost hair @ [Link removed. ALopezie.de]

I would sincerely & highly recommend this easy to follow step-by-step guide with pictures to anyone who is suffering from hair loss right now.

Anyway, its also a cheaper and effective way of regrow-ing lost hair compared to those unnatural ways which may involve harsh chemicals that may have side effects.

Good Luck !

Once you hair has grown back, all you have to do is make sure you take care of your health...and your hair will remain intact! Plus these herbs and the "magic hair oil" have the added benefit of boosting the health of your hair and making you it youthful again! I mean let's face it, if your hair follicles and hair pores are healthy, you will grow natural healthy hair and you will put a dead stop to any hair loss your are currently experiencing
