Hi there,

I recently ordered Proxiphen from Dr. Proctor. It was stopped at customs. I came there and they told me I couldn't import it because it is considered medicine. Is there anything I can do? I would hate to have spent so much money for nothing How do you guys order stuff from abroad?

I am new in Germany (and in this forum), and my German -- as well as my understanding of German regulations -- is very basic. I would appreciate it if someone could help me out here.

Thanks!

welcome to germany! tell Dr. Proctor the customs got hold of it and that they needa resend a package of proxiphen..usually they'll agree and it's very unlikely that the customs check it every single time
