Hello everyone,

I'm glad this website has an English speaking section. I did notice that nobody has really posted in here in a while - so before I bother posting anything I wanted to ask... does anyone use this sub-section?

Thanks!

Welcome to our Forum

Are you an Alopecia-sufferer?

Thank you for the warm welcome! Yes I suffer from alopecia for like 10 years. I tried a lot of  
things: minoxidil, finasteride, various vitamins, and sadly I even had a failed FUT 3 years ago.  
I recently started using RU when I was still in my home country, and coming in germany I looked  
like if there were other RU users and I found some here. I have to confess I still use google

translate on some posts but as I have said I am learning german these days so hopefully in the future I will be able, maybe, to contribute in german too.

It's good to have you onboard  
So what is it like to live in our "Führerhauptstadt" Berlin?

Did you try the Big 3 (FIN, Minox, Ketoconazole) simultaneously to get the positive synergies?

Other alternatives are the Antiandrogens: RU, Enzalutamide, Darolutamide.

Or stuff like Setipiprant, TM, needling (dermarolling / dermastamping)

btw.: we have a special recipe for a powerful KET lotion. You might wanna try it

I really really love Berlin so far!! There is always something to do/see and people are nice! Nod

Yeah I tried the big 3 simultaneously for 3 month now! But I would be interested in the powerful Ket lotion if it got some good feedback could you tell me more?

Also would you have good website to get minoxidil foam? I found some but compared to my country it is a little bit expensive (I used to buy 3 bottles of rogain foam for like 30 euros, only found around 50 euros here).

Thanks for welcoming me so nicely!!!!

The original and most popular recipe is this here:

<https://www.alopezie.de/fud/index.php/t/23751/>

It is a KET lotion made out of Ket-Shampoo and Alkohol. Simple as that :=)

For the "Hardcore-Variant" you add some Piroctone Olamine:

Thank you for the links to the ket lotion I will definitely try! Already asked to Pilos!

Also I have a question is finasteride expensive in Germany? In France I used to pay it (finasteride generic brand Teva) 40 euros for 12 weeks (1 mg every day).

Finasteride isn't expensive in Germany. 100 tablets @ 5mg cost about 60€. You can divide the tablets with a pill splitter. But you will need a doctor's prescription from your local general practitioner or dermatologist.

Officially it's for prostate issues, but many doctors prescribe it "off-label" for Alopecia Androgenetica. You go to a doctor of choice and say: "Dear doctor, I've had 5mg pills of Finasteride in the past and I need a new private prescription. And I really want 5mg because it's way cheaper than the overpriced 1mg version. I have a pill splitter at home, so I can make four 1,25mg portions. No problem there. I am a biologist and have pharmaceutical expertise. Don't worry! (something like that )

Most of us on this forum use the 5mg version. There are some doctors who will deny you the 5mg pills, but most general practitioners & dermatologists shouldn't give you any trouble. Maybe we have someone from Berlin on this forum who can recommend a general practitioner or dermatologist. (just open a new thread on this subforum: <https://www.alopezie.de/fud/index.php/f/5/> )
