hairenergizer

Trichogen is a formulation of 14 botanical extracts specifically developed to block 5 Alpha Reductase enzymes leading to DHT production and hair loss. Trichogen adds essential amino acids necessary for follicle development, irrigates DHT, dirt and oil, infuses nutrients, proteins and vitamins, and moisturizes to root and stimulates Anagen phase hair growth. Products for hair loss

Active botanical extracts include:

Kigelia Africana Extract - blocks 5 alpha reductase enzyme

Ginko Biloba Extract - stimulates microcirculation in the scalp

Cinnamomum Zeylanicum Extract - irrigates dDHT and bacteria from scalp

Salvia Sclarea Extract - stimulates and attaches to and blocks DHT

Panax Ginseng Root Extract - scalp stimulation for increasing hair depth & health

Arginine - essential amino acid

Acetyl tyrosine - essential amino acid

Arctium Majus Root Extract - blocks DHT

Hydrolyzed Soy Protein - proteins needed for hair growth

Zinc Gluconate - blocks DHT when combined with niacinamide and biotin

Niacinamide & Biotin - block DHT

When combined with active ingredients, such as Panthenol, Jojoba Oil, and Emu Oil, Trichogen helps stop male and female hair loss, and delivers vitamins, nutrients and amino acid proteins, while deep cleaning follicle pores and infusing moisture with anti-bacterial, anti-microbial, and anti-inflammatory properties.
