2500 grafts, or about 5000 hairs were transplanted to restore the hairline and the zone directly behind.

Hi,

Yes, the final result is 12 months after the treatment.

You can view our FUE hair transplantation prices

Please note that we only offer FUE hair transplantation, and only using 100% manual version for top quality.

Actually i didn't hear and read a lot of good things about the FUE Methods.
A lot of people say that they loose most of the implanted grafts....is that true? What do you say about this Argument?

Alexander

Interesting, can you show me some examples of people that have lost their transplants after having a hair transplant from Top institutes?

I had my first session about 13 years ago now, with 2 follow up sessions a couple of years later to make it more dense, totalling +6000 grafts.

Obvioulsy I started using anti hair loss products, first finasteride and now Keratene Retard in order to keep my native hairs from falling out (and that has worked very well for me over time).

Here I am in very recent pictures, remember I was 90% bald on top and frontal area

Not sure if you are seeing the same pictures, but the after pictures are taken directly under a bright light.

Again, we are not cheating, which would be easy to do with pictures alone, but cheating with video only for Hollywood.

Nice try though.

no one said you were cheating but there was obviously another light setting as you took the left picture...

Well, the reason for it being in another room is simple. We have moved to a new location this year.

Again, pictures tell a story, but video in HD is in my opinion the best method of showing the results, second to none.

Take care,
bart

Actually it is pretty sad that the patient had to do 3 FUEs and has to take finasterid afterwards... I mean +6000 grafts sounds really strange would like to see more photos....

Oh, you seem to know all ,right?

Not.

You have no idea about hair loss it seems.

The reason why I had 3 transplants and still use anti hair loss products is because in my family EVERY MAN is norwood 7 by the age of 35. So luckely for these products that I had not to deal with that.

You seem to have a hidden agenda for some reason. So here is the deal, please come out with your real name, and then you can continue. if not I will ask the mod to remove all your comments. thank you.

No secret, full disclosure. Here is where we take our pictures, yes beneath a strong light.

...der schlecht Ruf wird dem wohl gerecht...

Da du User im "Allgemeinen Forum" bist, antworte ich dir hier jetzt mal auf Deutsch. Ich finde es geradezu unerhört, in welcher Art und Weise du einen renommierten Anbieter versuchst, zu diffamieren! Du bist auch drüben im HT-Forum angemeldet, hast du dort jemals gelesen? Wenn nicht, kann ich dir nur empfehlen, das nachzuholen, damit du ein realistisches Bild erhältst von den dort vertretenen renommierten und empfohlenen Anbietern, ihren Leistungen, Fähigkeiten und Resultaten - die Prohairclinic eingeschlossen!

Und versäume bitte auch nicht, dich zu der FUE-Haartransplantations-Methode zu belesen, auch dahingehend scheinen deine Kenntnisse meines Erachtens arg verbesserungswürdig zu sein.

Dein Account geht in die Moderation, denn dieses Forum duldet kein Verhalten, wie du es hier an den Tag legst. Schau' in die Forenregeln, wenn du dir über das hier erwünschte Verhalten im Unklaren bist.

Gruß, Mona

You cannot compare both pictures as the light conditions are definetly not the same. Additionally, the hairstyles among both pictures are also different.

Despite this, from my point of view the outcome is overall average and nothing special, respectively. Just my opinion...
